

Project Development Phase

Performance Test

Date	10 Feb 2026
Team ID	LTVIP2026TMIDS35041
Project Name	Measuring The Pulse Of Prosperity: An Index Of Economic Freedom Analysis
Maximum Marks	

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No	Parameter	Screenshot / Values
.		
1.	Data Rendered	The dataset contains global economic indicators for multiple countries, including Overall Economic Freedom Score (2022), GDP, Inflation Rate, Unemployment Rate, Financial Freedom, Government Integrity, and other macroeconomic variables. Data is successfully rendered in Tableau using maps, bar charts, and comparative visualizations.
2.	Data Preprocessing	The dataset was cleaned by removing null and inconsistent values. Data types were verified, country names standardized, and numerical fields validated. Aggregations such as SUM and AVG were applied where required for region-wise and country-wise analysis.

3.	Utilization of Filters	Filters were applied on Region, Country Name, and selected economic indicators to allow dynamic analysis. Filters enable users to view specific regions, compare countries, and focus on selected economic parameters.
4.	Calculation fields Used	Calculated fields such as Average Overall Economic Freedom Score (AVG), Total Economic Freedom Score (SUM), and region-wise aggregations were created to analyze performance at different levels.
5.	Dashboard design	No of Visualizations / Graphs - 5–6 visualizations including World Map, Region-wise Bar Chart, Country-wise Comparison Chart, Top & Bottom Ranking Charts, and Indicator-based analysis charts.
6	Story Design	No of Visualizations / Graphs - 7–8 story points showcasing Economic Freedom Overview, Top 40 Countries, Bottom Ranking Countries, Region-wise Comparison, Inflation vs Unemployment correlation, GDP Growth impact, and Financial Freedom analysis.
