

Project Title :Measuring The Pulse Of Prosperity: An Index Of Economic Freedom Analysis

1. CUSTOMER SEGMENTS (CS) :

- Policy makers and government officials
- Economists and financial analysts
- Researchers and academic institutions
- Students learning data analytics and economics
- Business leaders and investor

2. JOBS-TO-BE-DONE / PROBLEMS (JBP)

- Analyze economic freedom scores across countries
- Compare regions based on economic indicators
- Identify top and bottom performing countries
- Understand the impact of GDP growth, inflation, and unemployment
- Make data-driven economic and policy decisions

3. TRIGGERS

- to evaluate global economic performance
- Requirement for visual comparison of countries
- Academic or project-based analysis needs
- Government and business decision-making requirements

4. AVAILABLE SOLUTIONS

- Raw economic datasets (CSV/Excel)
- Traditional reports and static charts
- Economic index reports without interactive analysis

5. CUSTOMER CONSTRAINTS (CC)

- Large and complex datasets
- Difficulty in interpreting raw numerical data
- Lack of interactive visualization tools
- Time constraints for manual analysis

6. PAINS

- Hard to compare multiple countries simultaneously
- No clear visual insight from tables alone
- Manual analysis is time-consuming
- Limited understanding of regional economic patterns

7. BEHAVIOUR

- Users prefer visual dashboards over spreadsheets
- Expect interactive filtering and drill-down
- Want quick insights rather than lengthy reports
- Compare countries and regions frequently

8. BENEFITS

- Easy understanding of global economic freedom
- Interactive dashboards for quick analysis
- Clear region-wise and country-wise insights
- Supports informed policy and investment decisions

9. PROBLEM ROOT CAUSE (PRC)

- Economic data is scattered and not visualized effectively
- Traditional methods fail to provide comparative insights
- Lack of interactive tools for economic analysis

10. YOUR SOLUTION

- Developed interactive Tableau dashboards and stories
- Visualized economic freedom scores using maps and charts
- Enabled country and region-wise comparison
- Integrated multiple indicators like GDP, inflation, unemployment
- Provided clear insights through dashboards and storytelling
