

Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	31 January 2026
Team ID	LTVIP2026TMIDS35041
Project Name	Measuring The Pulse Of Prosperity: An Index Of Economic Freedom Analysis
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Data Import	Import Economic Freedom Index Dataset (CSV/Excel). Load country-wise and region-wise economic data
FR-2	Data Preprocessing	Handle missing values. Clean and format numerical and categorical fields.
FR-3	Data Analysis	Calculate country-wise economic freedom scores. Calculate region-wise SUM and AVG scores.
FR-4	Data Visualization	Generate bar charts, pie charts, and line charts. Display economic freedom scores on world map
FR-5	Dashboard Creation	Combine multiple visualization
FR-6	Story Creation	Create story points explaining analysis step-by-step

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	The dashboard and stories should be easy to understand and user-friendly
NFR-2	Security	Data should be protected from unauthorized modification
NFR-3	Reliability	The system should produce accurate and consistent analysis results.
NFR-4	Performance	Visualizations should load quickly even for large datasets.
NFR-5	Availability	The Tableau dashboards should be accessible whenever required.
NFR-6	Scalability	The system should support adding new years or additional datasets easily.
